## Business Profile

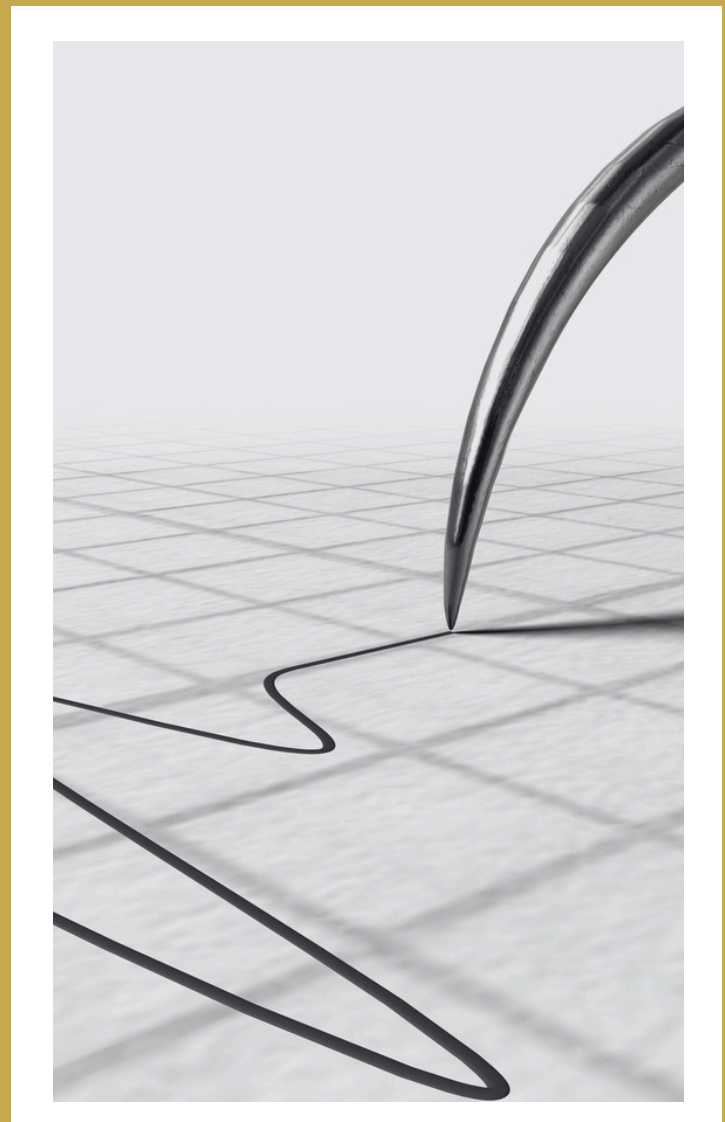

# About Us

InQuest Forensic Services offers professional, yet affordable investigative services. Operating in formal and informal environments, we make use of diverse methods to assist with our clients' quest for the truth. Specialising in Forensic Psychophysiology (IE. Polygraphy or Lie Detection) and background screenings, we aim to remove suspicion from individuals wrongfully accused and/or suspected of contravention, or to identify possible suspects, as well as to accelerate and transition sustainable work ethics, empowering management to make the right decisions regarding current and potential employees.

Our network of experts always go the extra mile to ensure our clients' needs are met and we pride ourselves in our professionalism. We are a Level-4 B-BBEE Contributor with 100% procurement recognition. Furthermore, we strictly adhere to South Africa's Protection of Personal Information (POPI) Act (4 of 2013) whereby our candidates' and clients' information is properly safeguarded.

InQuest Forensic Services Ltd is founded on three 'I's, namely Integrity, Inspiration and Innovation. Combined, the three pillars enable us to provide a bespoke professional service focused on creating and promoting an honest environment. Being committed to service excellence and client satisfaction, our approach to each client's quest for the truth is dependent on case-by-case analysis. We value our client relationships and will always ensure we provide you the best service suited to your needs.

- Detailed reporting per case

## Polygraph Examinations

### Investigative

Used when a specific incident such as theft, fraud or robbery has occurred to remove suspicion from individuals not involved, as well as identify possible suspects and/or the perpetrator(s) of the incident

### Integrity/General Screening

Excellent tool used to equip business owners/management to determine employees' general level of honesty and integrity, as well as ensure that honesty and integrity are maintained in the workplace.

### Pre-Employment Screening/Vetting

Used to screen/vet potential employees prior to appointment to determine whether the candidate possesses the level of honesty and integrity required by the company.

### Other

**Infidelity Testing:** To confirm/disprove allegations of unfaithfulness towards a spouse/partner

**Statement Confirmation:** To confirm truthfulness of written statements

**Polygraph Verification Test:** To verify failure on an initial polygraph test

*The Polygraph is an excellent tool that can be used not only during investigations, but also to mitigate risks in a company by ensuring truthful candidates are employed and integrity among current employees is maintained.*

GREAT TEAMWORK

## VERONIQUE DOUBELL

Founder and head Forensic Psychophysiological (Polygraph Examiner) of InQuest Forensic Services. She also serves on the board of Polygraph Examiners Association International (PEAI) since 2020.

In 2018, Veronique obtained an Honours Degree in Criminology at the University of Pretoria and was awarded the accolade of 'Best Student'. Thereafter, she worked as an Intelligence Analyst at a risk management firm. In October 2020, she was certified as Polygraph Examiner at the Polygraph Academy, where she also attained the 'Best Student' award.

Veronique believes in truth and justice, is very inquisitive and enjoys investigative work, which explains her interest in Criminology and more specifically, Polygraphy as a specialised investigative tool.

## MICHELLE JÜTERSONKE

Administrator of InQuest Forensic Services. From making bookings, liaising with clients, as well as editing reports and ensuring they are sent out on time, Michelle is our right hand.

With her curious mind, investigative skills and fine attention to detail, Michelle has made invaluable contributions to the cases we have worked on. Her insights, too, have assisted our clients in their quest for the truth in a wide range of scenarios.
